On October 29, 2007, The Buckeye Tobacco Settlement Financing Authority issued its Tobacco Settlement Bonds in the aggregate principal amount of \$5.532 billion. The total gross proceeds, net of any market discounts and premiums, equaled \$5.465 billion.

The following table summarizes the sources and uses for the Tobacco Settlement Bonds:

SOURCES AND USES	
Source of Funds	
Par Amount.....	\$5,531,594,541
Net Issue Discount.....	(66,825,286)
Total Sources of Funds.....	\$5,464,769,255
Uses of Funds	
Deposit to School Building Assistance Fund.....	\$4,112,000,000

Underwriters' Compensation/Other Costs of Issuance.....	<u>25,537,652</u>
Total Uses of Funds.....	\$5,464,769,255

The liquidity reserve in the amount of \$389.2 million is a funded reserve held by the Trustee for the purpose of securing the payment of debt service on Tobacco Settlement Bonds in the event that tobacco settlement receipts are insufficient to make the required debt service payments on those Bonds when due. The monies in the liquidity reserve will be expended to make the final debt service payments on the Bonds, at which time the tobacco settlement receipts will again be paid to the State (rather than the bondholders).

The total borrowing cost for the Tobacco Settlement Bonds, calculated inclusive of underwriters' compensation and all other costs of issuance, is 6.29%. While the stated final maturity of the Tobacco Settlement Bonds is 45 years, if tobacco settlement payments are received each year at the baseline levels projected at the time of the bond sale, the Tobacco Settlement Bonds will be fully paid off in year 2031 (24 years after issuance). The total principal and interest projected to be payable through year 2031 is \$11,146,264,961.

On October 29, 2007, the Tobacco Settlement Senior Bonds (Series 2007A-1, 2007A-2 and 2007A-3) were rated "Baa3" by Moody's Investors Service, "BBB" by Standard & Poor's Rating Services and "BBB+" by Fitch Inc.
