

Role and Overview

The Ohio State Board of Pharmacy (PRX) was established in 1884 to ensure that those who are licensed by the board meet certain minimum education and training criteria to safely practice pharmacy and to legally distribute drugs in Ohio. The board monitors pharmacists and pharmacy intern licensees to ensure compliance with the laws in the Ohio Revised Code and has statewide jurisdiction for enforcement of criminal drug laws. The board also maintains an electronic database to monitor the distribution of controlled substances and dangerous drugs by terminal and wholesale distributors. The board has just over 31,000 licensees. Additional information regarding the Board of Pharmacy is available at: <http://pharmacy.ohio.gov/>.

Agency Priorities

- Respond to all complaints relating to medication errors made by pharmacists.
- Provide personal attention to every person who calls the board office.
- Improve and expand on the services offered by the Ohio Automated Prescription Reporting System (OARRS), the board’s prescription monitoring program.
