As more agencies are added, planning becomes more complex. This will continue to be an issue where the Committee will want to have meaningful input. Each meeting includes a discussion of the plan status and progress – as well as emerging changes to the plan. There is a good balance of Assurance and Consulting engagements included.</p> <p>*In the upcoming year, it would be helpful to have some additional discussion about the plan’s achievement target. Is 80% the right target? How is this computed given that new project are added and some projects don’t materialize?</p> <p>*We should also spend some time on the issue of cyber security – the state’s approach and how cyber security risks are factored into IT internal audit engagements.</p>
