

Ohio Department of Taxation Payment Card Transaction Review Audit

Audit Period: April through June 2016

Results Summary:

| Objective | Conclusion |
|---------------------------|-----------------|
| Payment Card Transactions | Well-Controlled |

* Please refer to Appendix A for classification of audit objective conclusions.

Executive Summary

Background

The State of Ohio's Payment Card Program is designed to make purchases for goods and services below a specified amount without undue delay. Use of the card is meant to simplify and streamline the acquisition process and lower overall transaction costs. In addition to the payment card, the program has an electronic invoicing and payment process, which lowers the amount of time spent processing invoices for payment. From April through June 2016, the Ohio Department of Taxation (TAX) had 163 payment card transactions totaling \$77,155.67.

During the audit, OIA identified opportunities for TAX to strengthen internal controls and improve business operations. OIA conforms with the *International Standards for the Professional Practice of Internal Auditing*. OIA would like to thank TAX staff and management for their cooperation and time in support of this audit.

This report is solely intended for the information and use of agency management and the State Audit Committee. It is not intended for anyone other than these specified parties.

Scope and Objectives

Through the utilization of automation and data analysis, OIA staff was engaged to perform an assurance audit over payment card transactions processed April through June 2016. This work was completed August through September 2016. The objective of the review is to evaluate the effectiveness of payment card transaction controls through data analysis.

Detailed Observations and Recommendations

The Observations and Recommendations include only those risks which were deemed high or moderate. If any low risk observations were made during the course of the engagement, they were discussed with individual agency management and are not part of this report. There were no high, moderate or low risk observations for this engagement.

Appendix A – Classification of Conclusions and Observations

Classification of Audit Objective Conclusions

| Conclusion | Description of Factors |
|--|---|
| Well-Controlled | The processes are appropriately designed and/or are operating effectively to manage risks. Control issues may exist, but are minor. |
| Well-Controlled with Improvement Needed | The processes have design or operating effectiveness deficiencies but do not compromise achievement of important control objectives. |
| Improvement Needed | Weaknesses are present that compromise achievement of one or more control objectives but do not prevent the process from achieving its overall purpose. While important weaknesses exist, their impact is not widespread. |
| Major Improvement Needed | Weaknesses are present that could potentially compromise achievement of its overall purpose. The impact of weaknesses on management of risks is widespread due to the number or nature of the weaknesses. |

Classification of Audit Observations

| Rating | Description of Factors | Reporting Level |
|-----------------|--|---|
| Low | Observation poses relatively minor exposure to an agency under review. Represents a process improvement opportunity. | Agency Management; State Audit Committee (Not reported) |
| Moderate | Observation has moderate impact to the agency. Exposure may be significant to unit within an agency, but not to the agency as a whole. Compensating controls may exist but are not operating as designed. Requires near-term agency attention. | Agency Management and State Audit Committee |
| High | Observation has broad (state or agency wide) impact and possible or existing material exposure requiring immediate agency attention and remediation. | Agency Management and State Audit Committee |
