- (c)** For fiscal years 1995 through 1998, federal government revenue includes the effects of recognizing the distribution of food stamp benefits as revenue, in accordance with the reporting requirements of GASB Statement No. 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance*. Federal government revenue data for fiscal years 1989 through 1994, however, have not been restated for the effect of this change in accounting principle.
- (d)** For fiscal years 1989 through 1996, investment income has been included in "Other" revenue.

**Notes:**

- (a)** This table includes expenditures for the General, special revenue, debt service, and capital projects funds.
- (b)** For comparative purposes, the expenditure data for fiscal year 1992 have been restated for changes in the State of Ohio's reporting entity that resulted from the implementation of GASB Statement No. 14, *The Financial Reporting Entity*, for fiscal year 1993.
- (c)** Within the higher education support function, the significant decline between fiscal years 1991 and 1992 is primarily a result of reclassifying budgetary expenditures made for the state universities and state community colleges to "Operating Transfers to Component Units" on a GAAP basis. The reclassification is necessary to conform with the reporting requirements of GASB Statement No. 14.
- (d)** For fiscal years 1995 through 1998, expenditures reported under the public assistance and Medicaid function include the effects of recognizing the distribution of food stamp benefits as expenditures, in accordance with the reporting requirements of GASB Statement No. 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance*. Public assistance and Medicaid expenditure data for fiscal years 1989 through 1994, however, have not been restated for the effect of this change in accounting principle.
