MEMORANDUM

To: Members of the Controlling Board

From: J. Pari Sabety, Director
Office of Budget and Management 

Subject: Reporting Requirement of Ohio Revised Code Section 126.14

Date: December 1, 2008

Amended Substitute H.B. 562 contains capital appropriations for fiscal years 2009 and 2010. This memorandum fulfills a reporting requirement, as described below, that Ohio Revised Code (ORC) Section 126.14 places on the Director of Budget and Management (OBM) to determine which appropriations are for general projects and which are for specific projects. The Director of OBM is subsequently authorized to release appropriations for specific projects, while only the Controlling Board can release appropriations for general projects. Lastly, the revised code specifies that only the Controlling Board can release appropriations for the purchase of real estate.

Prior to being authorized to release appropriations for specific projects, ORC Section 126.14 requires the Director of OBM to submit to the Controlling Board a plan that includes a brief description and estimated expenditure for each specific capital project. The revised code also states that the list of specific projects may include specific higher education projects that are to be funded from general-purpose appropriations from the Higher Education Improvement Fund (Fund 7034).

The attached document contains the required plan. The attachment identifies, in the column titled General "G" or Specific "S", those appropriations that have been determined to be for specific projects and those which are determined to be for general projects. For general purpose, higher education appropriations that will be used for specific projects, a plan, or breakdown, of the general purpose appropriation is shown beneath each general purpose appropriation. This breakdown shows the name of the specific project and its estimated cost.

Attachment

c: Mark Flanders, Director LSC
OBM Budget Analysts
